Details of the pre-application advice received

The application was for the 'erection of a roof extension with roof terrace at front, installation of two obscure glazed windows to the side elevation and alterations to the front elevation.' The pre-app advice stated that: -'The principle of a roof extension may be considered acceptable subject to design detail.' - 'It is considered that a more traditional approach such as a mansard roof extension would be more appropriate and acceptable.' - 'A mansard should use traditional materials of slate and timber.' Further points taken from the pre-app advice are summarised within the Design and Access Statement. 31/01/2023 - Subsequent mansard form (which forms part of this application) was sent via email to Enya Fogarty and was viewed favourably, although no comment was given to the rear elevation at Pre-Application stage.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
