Dear Camden Planning

Planning Application Camden Lock Market (reference 2022/3853/P)

I am writing to object to the element of the above planning application that proposes a 40-metre-high Ferris Wheel. Camden, and Gloucester Crescent where we live has become unsafe. We can see more and more violence and drug dealing happens almost every day (we sent several videos to the Police). The police is already extremely busy and unable to act in a swiftly manner when crimes occur. We are also concerned about the number of additional visitors that the Ferris wheel will attract and the negative implications it will have not only on the number of crimes but also on the loss of privacy that residents will face.

Cyril Besseddik
