1. Introduction:

The following Design & Access Statement relates to a new glazed entrance at street level, insertion of an external courtyard & increased headroom to first floor, installation of new flat rooflights and internal alterations at No. 80 Highgate Road, London NW5 1PB.

2. Site and Context

The property is located on a section of Highgate Road which is characterised by a variety of building typologies which include light industrial building which accommodated a range of manufacturing in the area during the late 1800's. The current use is Retail [Classe E] with ancillary storage.

No 80 Highgate Road is located at the end of a row of light industrial buildings, sharing boundaries with both No. 76-78 & No. 82 Highgate Road. No. 80 fronts onto Highgate Road while the side elevation faces the immediate open area of The Vine public house courtyard (No. 86 Highgate Road).

The site falls within the London Borough of Camden and within Dartmouth Park Conservation area Sub Area 1.

3. Design Approach:

The proposal consists of a new glazed entrance at street level, insertion of an external courtyard at first floor level and an alteration of the roof profile to increased headroom to the first floor. The alteration is achieved by raising the flat roof level while maintaining the roof level below the ridge level, installation of flat rooflights and internal alterations to No. 80 Highgate Road. The alteration will allow a more flexible approach to configuring a more appealing retail offering on the site.

4. Materials:

Windows and Doors **will be painted timber**

New roof coverings to match existing coverings.

Flat rooflights.
