Subject: Camden Market Application Support - 2022/3853/P

To the respected person of Camden Council,

I am a high street trader within in Camden, I would like to show my support and interest in the redevelopment scheme. As a business owner who has been trading in this Market for many years, we have experienced absolute highs, since covid, this has drastically decreased the footfall in the area and although things have picked up, we are still somewhat struggling to get back to the times of pre-covid. We believe that the redevelopment will help us tremendously. It will bring new and positive attention to the Market, along with many more job opportunities for those who are still struggling to find one. The ferris wheel and opening of the Dead Dog Basin will allow people to see new sites and access parts of Camden no one has been able to access before.

As a tenant, I Highly welcome this redevelopment and I am in full support of this. Please consider our businesses and livelihood.

Thanks
ME CASUAL WEAR LTD
