Subject: Tree Allocation, Appeals and Enforcement Team - 2023/1758/T: 7
Provost Road

We are responding to the Notification of Intended Works to Tree(s) in a Conservation Area (2023/1758/T) by email since we missed the date when we might have done so via the planning portal.

The main issue here is the proposal to fell a mature sliver birch located quite close to the rear of the house. We would have no objection provided the Tree Officer does ensure that a "Replant with a similar species of reasonable girth and height but further away from the house" is carried out, as indicated is the intention on the application form. In recent years many of the houses on Provost Road have changed hands and new owners tend to clear the overgrown gardens. Slowly but surely the conservation area is losing its biodiversity, a trend exacerbated by the erection of rear extensions and garden rooms.

Your sincerely,
Geoff May
Chair, Eton CAAC
