About Camden

Camden is building somewhere everyone can thrive, by making our borough the best place to live, work, study and visit. Because we're not just home to UK's fast-growing economy. We're home to the most important conversations happening today. And we're making radical social change a reality, so that nobody gets left behind. Here's where you can help decide a better future for us all.

Camden is one of 75 local authorities delivering the Family Hub and Start for Life Programme (2022 – 2025), overseen by the DfE and DHSC. The Early Years Speech and Language Therapist will support the development and delivery of Camden Kids Talk (CKT), a system-wide approach to improving early language and the home learning environment (HLE), one of the areas funded through the Family Hubs and Start for Life programme. The aim is to support communication, speech and language from pregnancy, increasing the number of children reaching a good level of development at the end of their Early Years Foundation Stage. This work is part of Camden's increased investment in the first 1001 days and ongoing commitment to prevention and early intervention to reduce inequality and give every child the best start in life.

The role involves being part of a significant change programme to tackle the increasing concern about communication, speech and language development and to improve outcomes for children at the earliest opportunity.
