2023/2109/T	E. Peel	30/05/2023 01:16:55	OBJ	I object to the felling of T1 Pyracantha at the front of the property, as this provides a useful amount of verdant treescape that is very visible from the street. Instead a degree of regular management should be undertaken to keep the size of the crown well regulated and allow more light into the window. An abundance of trees is a well-documented characteristic of the S. Hampstead Conservation Area and this needs to be preserved wherever possible in the face of endless attempts to remove trees for no very valid reason.
