into your home

Vertical Sliding Sash Windows

ECOSlide[®]
The No.1 Sash Window Brand

ECOSlide PVC-U sash windows will enhance your home

Vertical sliders are a traditional style of window. Commonly found in older properties, they are usually manufactured from timber. This elegant type of window is a popular replacement in period houses, its design giving your home a sophisticated charm and style that you won't achieve from a standard casement window. Real timber windows can be expensive so homeowners look to more affordable solutions such as PVC-U.

Whether you live in an older property or a more modern home, ECOSlide PVC-U sash windows are a cost-effective solution for replacing like for like replacement or as an alternative to other styles.

Choose from a range of colour and hardware options to complete your window and create a look that fits in perfectly with your home.

Windows to suit your style

We offer a range of sash window styles to match your old windows as closely as possible and maintain the signature "design statement" for your home.

We can replace bay-style windows including splay and box bay windows. These are a common feature in older properties and when combined with a sliding sash window the installed appearance is very impressive.

We can also replace arched and swept head windows. These shaped styles are incredibly eye-catching. ECOSlide PVC-U sash windows are bespoke-manufactured to your exact requirements, to maintain the appealing charm of your home.

Other additional design options are available with internal Georgian Bar or external Astragal Bar detailing, to ensure your new windows are truly authentic in style.

A small selection of the styles available

Sliding

ECOSlide PVC-U sash windows primarily function like a wooden box sash window with both the top and bottom sashes sliding up and down to suit your ventilation requirements.

Convenient and simple to operate, the two sliding sashes within an outer frame work independently of each other on a balanced load mechanism, designed to hold the sash at any height.

Tilt & Easy Clean

ECOSlide PVC-U sash windows are incredibly low maintenance, requiring only a quick wipe down with a damp cloth to keep them looking as good as new.

The window sashes feature an inward opening tilt facility to allow easy and safe cleaning of the outside frame and glass from inside your home. This is particularly useful for second storey windows or windows positioned in a hard to reach place, such as above a conservatory.

Colour & Foil Options

Timber box sash windows were always painted and you can replicate this look, if you want a more natural wood effect, our Crystal White, Cream, Golden Oak and Irish Oak foils give a realistic woodgrain appearance that mimics the grained texture and appearance of an original timber window.

We also offer colour outside / White inside options in Chartwell Green, Anthracite Grey, Agate Grey, Rosewood, Black Brown, Cream, Golden Oak and Irish Oak. With this option you can have the external colour you like, whilst maintaining a White interior to better suit your home's decoration.

Colours shown are a guide and are only as accurate as the printing process allows

Spraying and colour matching

Our on-site paint shop enables your ECOSlide PVC-U sash windows to be spray painted to match virtually any RAL code or colour.

You can personalise your vertical sash windows and colour co-ordinate them to match your property or just to suit your own personal taste.

Our optional spray painted finish is applied to the highest standards and will provide a unique and colourful addition to your home.

Attention to Detail

It's the little details that help make ECOSlide sash windows as authentic as possible. Our PVC-U windows are designed to be smooth and sleek with slim profile sections giving a better appearance, which is pleasing to the eye as well as offering improved views from the inside and outside.

To complete the timber-like appearance, our windows incorporate the same stylish features found on original timber sash windows such as astragal bars, decorative sash horns and traditional-style operating hardware. The jambs, sash sections and meeting rail are all engineered to look just like a timber sash window, giving you truly authentic looking new windows.

Hardware and Security

Add the finishing touches to your new windows with traditionally-styled vertical slider hardware. Pole eyes, tilt knobs, sash lifts, sash locks and travel restrictors are fitted as standard, but we can also offer D handles if needed. All hardware is available in Chrome, Gold, White, Black or Satin Chrome to complement our range of colours.

Other additional options are available such as Georgian or Astragal glazing bars and trickle vents, to give your new windows a truly authentic and classical vertical slider look.

In addition to this, ECOSlide PVC-U sash windows are designed to be extremely safe and secure. High performance locking systems keep your home safe from potential intruders to give you extra peace of mind.

For added safety we also offer the option of a "Fire Egress" window design to provide emergency escape.

Travel Restrictors
Provide enhanced security and safety for your vertical sliding sash windows. Used to restrict the opening of the window to just 100mm. Key operated.

D Handles
These optional easy-grip handles can be used in place of pole eyes or sash lifts and can be fitted externally on the bottom of the top sash for ease of operation.

Pole Eyes
Used for opening and closing the top sash. One Pole Eye is fitted to windows up to 479mm wide. Two are fitted on windows 480mm wide and over.

Tilt Knobs
Allow inward tilting of the sliding sashes for easy and safe cleaning from inside the home. Two Tilt Knobs are fitted as standard.

Toughened Glass
Fitted in both top and bottom sashes as standard.

Security Bar
This specially-designed feature is an integral part of the window call which significantly increases security, to help prevent potential intruders using tools or excessive force to try and lever open the bottom sliding sash and gain entry.

Sash Locks
Lock both bottom and top sashes firmly in place when the window is fully closed. Key lockable. One Sash Lock is fitted to windows up to 799mm wide. Two are fitted on windows 800mm wide and over.

Sash Lifts
Used for opening and closing the bottom sash. One Sash lift is fitted to windows up to 479mm wide. Two are fitted on windows 480mm wide and over.

Energy Efficiency & Ratings

Enjoy a warmer, more comfortable home with energy efficient sash windows

Scan above QR code to see our interactive ECOSlide brochure

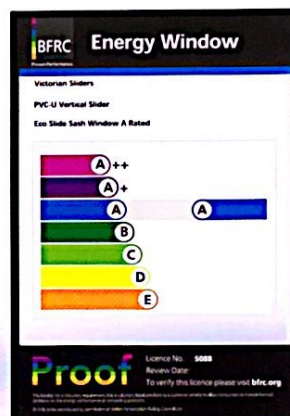

Windows are given energy ratings based on their ability to insulate your home. These are displayed on a colour scale ranging from 'A++' to 'E', with 'E' being the least energy efficient and 'A++' the most energy efficient.

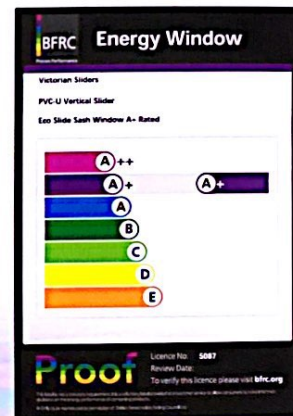

Putting the style back into your home with **ECOSlide** will make your home a warmer and more comfortable place to live, saving on your energy bills year on year.

ECOSlide PVC-U sash windows are 'A' rated as standard.
