

Camden Market Improvement Development - 2022/3853/P

Dear Mr Kresovic,

I wish to express my interest in the Camden Lock Market redevelopment scheme as I have been a resident of Camden for many years now. There are obvious benefits from this scheme, the facelift of the west yard and the market in general is something that has been needed for years.

I also think the opening of the dead dog basin is very significant – this has never really been accessible for visitors and as a Camden resident, by bringing this in it brings a new interest into the area. I also think the planned use of the basin is really exciting and I'm sure creatives in the area will welcome this.

Best regards
