

Reference number 2022/3853/P

Dear Camden council,

I am a resident of Highbury & Islington borough and my partner lives in Camden Town hence we spend a lot of time in Camden.

I've recently heard about the plan for an observation wheel and think it sounds really exciting. It would be nice to see a change in Camden with a more mature crowd. This could potentially be a great tourist attraction especially if you look at the long queues for London eye.

Just feel camden seems a bit stuck in the 90s compared to other parts of London and could use an upgrade.

Thank you for taking the time to read this.

Kind regards,

Dr Ayantika Dhara
