

# Indicative Detail 16: Room 369 Upper Hall, 3F

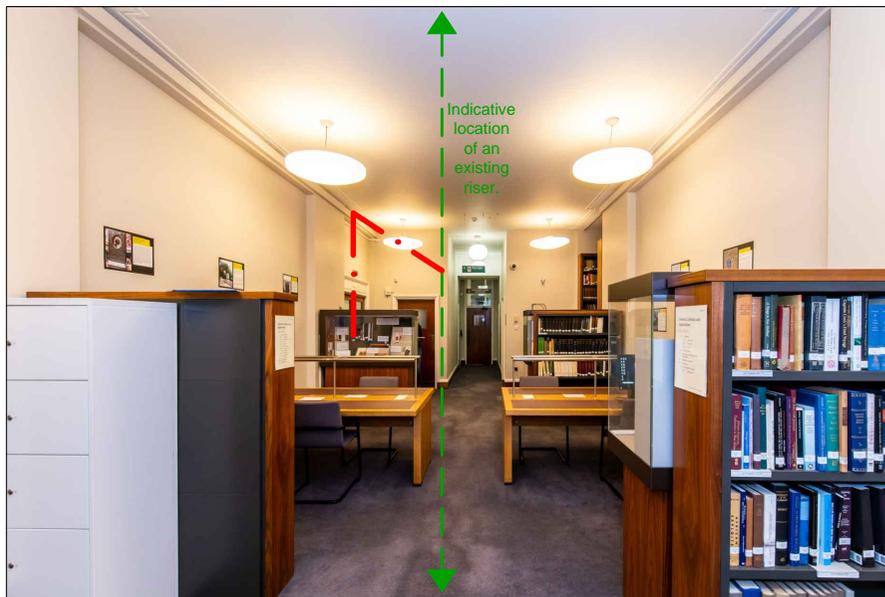

Proposed galvanised conduit for the DRRU will use the existing service trunking that runs at the cornice level (see the red dotted line).

Room 369 Upper Hall, looking east toward the doorway to ST7. All devices shown are indicative of locations only. Not to scale.

Floorplan showing the relevant proposed devices and associated conduits in this location.

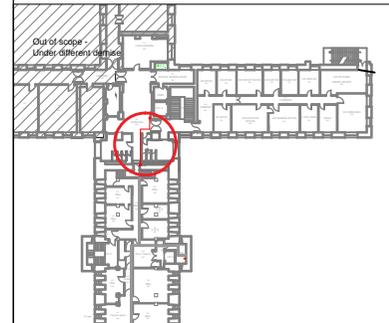

Room 369 Upper Hall, looking south toward the riser.

Proposed DRRU to be installed. For further details of this device, please refer to Appendix 5 of the heritage, design & access statement.

## Notes

1. This drawing is an Outline Design showing the relative location of the proposed devices. The final locations of the proposed devices are subject to the final assessment to be carried out by the specialist contractors once listed building consent has been granted.
2. If the proposal materially differs from the outline design included here, a new LBC application will be submitted. Additional details can be provided as a Discharge of Condition if required.
3. This drawing indicates design intent only and shall not be used as an installation or working drawing.
