## Your electricity statement

For 28 June 2018 to 21 December 2018

### Latest meter reading

Electricity      21 December 2018      Our reading      15525

### Manage your energy

Did you know you can now manage your energy from your smartphone? It's an easy way to view statements, make payments, track your energy use and send meter readings. Download now at [npower.com/app](http://npower.com/app)

### Could you pay less?

It's easy to switch to the best tariff online. Just go to [npower.com/cheapesttariff](http://npower.com/cheapesttariff) to find out how.

Remember - it might be worth thinking about switching your tariff or supplier. Below are the cheapest tariffs we have available for you today and you can find details of your current tariff in "Your energy charges and tariff information" section. Your personal projection is calculated based on your estimated usage for the next 12 months and your tariff prices. VAT and any announced price changes are included, Warm Home Discounts are excluded. If your tariff has an end date, then our standard prices are used after that.

| Personal Projection                          | The cheapest option similar to your current tariff | The cheapest option from all of our tariffs  |
|--|--|--|
| Estimated electricity cost<br><b>£770.25</b> | You're already on the<br>cheapest tariff           | <b>You could save<br/>£19.93 a year on<br/>Broker Exclusive Fix Dec<br/>2019 Elec DD</b> |

Switching tariffs could mean a significant change to your terms and conditions and some tariffs have eligibility criteria. For example, you may need to change your payment method or manage your account online. Some tariffs are available for a limited time only.

Please note your standard tariff price is not fixed and may be increased in the future.

Compare tariffs and access your personal energy information and usage, by scanning this QR code with your smartphone.
