Dear Planning

application reference number 2022/3853/P.

I am writing to object to the proposed Feris wheel at Camden Lock

This is entirely out of keeping to the culture and heritage of the area.

This already small and crowded area cannot safely accommodate the numbers of visitors.

This is a solely commercial imperative, that exploits the heritage and local people who are invested historically and currently, in the cultural activity and diversity of the area.

Perhaps those developing and investing in premises and business could have a quota of funding required to be given to art and music and non commercial cultural activities. This would be a more appropriate gesture to thank and pay back the area for what has made it attractive to tourists.

Please resist the continual extraction and exploitation of Camden people and their locality and DO NOT allow this Feris wheel to be installed

Regards

Dr Esther Windsor
