Dear Camden Council planners,

I wish to register my strong objections to the planning application reference number- 2022/5281/P and particularly to the proposed scope of its EIA (Environmental Impact Assessment) which I believe will make the entire area unliveable, both for existing and new residents. The plans call for a gross overdevelopment of the area, without the necessary additional infrastructure mandated by an additional 582 flats (anything from additional GP surgeries to additional drainage and sewer systems). These plans were clearly drawn up with a shocking disregard for the well-being of anyone living in the area.
