We wish to object to planning permission being given for the building of swimming pool by deep excavation in the cellars of 13 Belsize Crescent NW3

There will a risk of ground movement associated with the steep terrain and the age and structure of the terrace and the age of its brickwork.

There will be a high risk of flooding a significant decrease in the safety and risk of harm to entire terrace.

There will be a need to install permanent water pumps above and below 13 Belsize Crescent to protect other properties.

The narrowness of the street will cause a significant impact on the whole street.

Yours faithfully

Martin ad Anne Wright
