Inventory: Guidance Notes to Tenants

You are reminded that it is your responsibility at the beginning of the tenancy to note any specific discrepancies on the inventory that you do not agree with i.e. marks on walls, carpets, etc. If no such additional notes are made by the tenant at the start of the tenancy, the inventory will be deemed as accepted as read.

The inventory report has been prepared by No Letting Go and provides a fair and accurate record of the decor, contents, fixtures and fittings of the property

The condition of the property at the start of the tenancy, as described in the inventory will be compared to the condition of the property at the end of the tenancy. Details of any alterations to the property after the inventory has been agreed upon should be noted on a separate addendum sheet and agreed by the tenant and the managing agent/landlord. At the end of the tenancy a Check Out report will be conducted to determine any changes to the inventory. The tenant should gain permission from the managing agent/landlord if they wish to remove or store any items during the tenancy and this should be confirmed in writing by the managing agent/landlord.

The inventory clerk cannot undertake to move heavy items of furniture or to make searches in inaccessible locations such as loft spaces, cellars, locked rooms and high level cupboards, or to unpack items. We reserve the right not to handle or move items deemed to be fragile or valuable. In addition the inventory clerk reserves the right not to handle items that may be of a health hazard and to generalise/summarise on such items deemed to be unsuitable for further inspection.

Disclaimer

This inventory has been prepared by an inventory clerk who is not an expert in buildings, furnishings, decoration, woods, antiques or a qualified surveyor.

This inventory relates only to the furniture and all the landlord's equipment and contents in the property. It is no guarantee or report on the adequacy of, or safety of any such equipment or contents, merely a record that such items exist in the property at the date of preparing the inventory and the superficial condition of same.

No Letting Go will not take water meter readings unless the meter is clearly visible within the property or attached to an exterior wall at low/accessible level.

Windows throughout the property have not been tested for function or operation. Descriptions are purely based on the superficial appearance of windows, frames and locks. No Letting Go can accept no liability arising from any failure of the windows or parts thereof to function properly at all.

The inventory clerk cannot undertake the testing of appliances and is not qualified to report on the safety of any appliances other than a general visual inspection of condition. All electrical items are deemed to be complete with fixings (plugs, cables etc) unless otherwise stated.

Furniture & Furnishings (Fire) (Safety) Regulations 1988 (1993)

The fire and safety regulations regarding furnishing, gas, electrical and similar services are ultimately the responsibility of the instructing principal. Where the Inventory notes "Fire Regulation Label Attached", this should not be interpreted to mean the item complies with the "furniture and furnishings (fire) (safety) (amendments) 1993". It is a record that the item had a label as described or similar to that detailed in the "guide" published by the Department of Trade and Industry January 1997 (or subsequent date). It is not a statement that the item can be considered to comply with the Regulations.

Using The Inventory

All static, loose or movable items in this inventory are listed as far as possible from left to right starting at the main door. Multiple items may be grouped together and may require locating.

Light fittings are assumed to come complete with a serviceable bulb(s) unless stated.

Settling cracks to walls and ceilings are accepted and will not be mentioned unless necessary.

All measurements are in centimetres/metres and are approximate to within 1 centimetre unless stated otherwise.

Declaration: Check In

This is a supplemental check in report to the No Letting Go inventory and schedule of condition which will fully detail the contents, decor, fixtures and fittings and condition of the property.

The inventory should be used in conjunction with this report, but as it is unavailable to be viewed at the time of the check in, this document provides a summary of the overall condition and cleanliness of the property and also highlights any outstanding maintenance issues.
