

Condition 5: Cycles

Tesla Wall Connector:
Wall Connector is our most convenient charging solution for Tesla and non-Tesla electric vehicles. The lightweight design allows for versatile, indoor or outdoor mounting that adapts to a range of electrical systems - designed for houses, apartments, hospitality properties and workplaces.

Features:

- Compatible with any Type 2 charge port
- Wi-Fi connectivity for over-the-air firmware updates
- Up to 71 km of range per hour
- Up to 22 kW with three-phase charging grids
- Power sharing to support multiple Wall Connectors
- Easy installation with single or three-phase grids
- Tesla charge port opening from connector
- Option to set maximum current during installation
- 7.3 m cable length

Electric Charger Plan:

Externally mounted electric charger
