2023/0692/P	Nicki Kefalas	13/06/2023 18:47:20	OBJ	<p>A basement excavation is totally inappropriate for Belsize Crescent which is made up of very old steep terraces on a steep slope. This will affect the integrity of the whole terrace and ground movement and seems very dangerous indeed.</p> <p>There is no precedence of basement excavations in Belsize Crescent for this reason. Also an external lift is very out of character for these types of houses and will look very strange indeed.</p> <p>These types of works are only appropriate for detached houses on a level street.</p> <p>I object strongly to both of these plans.</p>
