**REGARDING Planning Portal Reference: PP-11869613, 13 COSMO PLACE, LONDON WC1N 3AP**

To whom it may concern

I would like to submit my strongest objection, to the above listed Planning Application, of which I am currently a neighbor of at 2 Queen Square, London WC1N 3AR.

I have lived on Queen Square for twenty three years and. have witnessed many poorly made decisions by Camden Council.

Due to previously ill made decisions that have directly impacted our house, like the moving of the loading bay from an uninhabited place in front of the Church to 2 Queen Square which causes permanent vibrations to the building during loading that starts almost every day at 3am/4am. We had made the Council aware of this before they moved it and are suffering the consequence of that.

Because of this we cannot leave the windows open onto Queen Square in the effort to dampen noise caused by this. Even in summer when it is hot the bedroom windows facing the square cannot be left open, unless we want to be woken at 3am.

Due Camden Council negligence in following up on building code violations of the now Restaurant on 13 Cosmo Place.

Their exhausts are blowing right in front of our west window, on the 1. Floor. The noise from the roof mounted units prohibits us from opening the windows as the additional noise make a conversation difficult. The constant smell and the noise pollution travels up the facade and makes sleeping in the bedrooms very difficult. The children are too often exhausted by the additional noise pollution, particularly in summer when it becomes very hot in the house.

So due Camden Council's previous and possibly future decision we can not open the windows on both sides of the house.

We have contacted Camden multiple times over the years and there is still no resolution, even to the clear building violations that are on going.

I strongly plead with the Council to not grant the above listed application.

Sincerely,

Sabine Nakanishi  
2 Queen Square

London, WC1N 3AR
