Subject: Dead tree cutting

Dead Camden Planning,

I am planning to cut down the two dead trees in my garden that have been killed by the extreme ivy growth over many years of neglect. Please see pictures below.

As you can see, the ivy has strangled the trees and killed off any new growth. The green you can see is in fact the ivy bush.

Since I live in a conservation area, I need your consent to remove these two trees. Please can you confirm.

Thanks,
Duncan
