---

I know the "Theme Park" and Wheel have already been granted permission. But do we really have to keep dumbing down Camden? Aren't there any other ways for Camden Council to make more money?

We residents have to get permission to paint our walls a new colour, or change our windows, but Camden allows major blunders to leap ahead in a Conservation Area!

Already Camden Town Tube Station cannot handle the crowds that visit the clubs and Lock in Camden. It seems that plans to make a bigger station have long been shelved. Plus the new buildings going up where Morrison's used to be will anyhow increase crowd movement. So yes, more crimes and more filth on the streets of Camden for the Metropolitan Police to handle.

A very disappointed Resident.
