We are very concerned with the lack of consideration for both our privacy and noise levels. The noise report did not include balcony noise of which 6 are proposed. All of these are closer to our houses than Camden's own 18m recommendation . No mention was given to the fact that we have sash windows with no double glazing. The flats layouts have the kitchen/diners to the rear facing us if windows are open this will cause significant noise to our homes .The balconies are so close and look into gardens and bedrooms which will really impact our quality of life. We firmly believe these should be relocated to the Acton street side where no tenant will be affected. We also feel the flats bedrooms should face us as that would have less impact on noise and overlooking. Regarding the rear courtyard we also feel the time limit for its use should be 9 to 5 as the noise at this lower level will affect us . We feel there has been a lack of transparency regarding the residential block with no clear visual graphics to show us what it will look like from our side. We also believe any comments we submitted regarding our concerns about these balconies have been ignored.</p> |
