Anna

Thank you for your email. Please refer to the map on the Camden website – [Supplying low carbon energy](#) which indicates that Bloomsbury and Gower Street DENs.

Please also explore any local waste heat sources from the map for potential opportunities.

Kind regards

Katherine

Hi Katherine,

We're working on the energy statement for the proposed development at Selkirk House 166 High Holborn and 1 Museum Street. From the London Heat Map it looks like there are no current or proposed district heat networks within reasonable proximity to the site.

Could you confirm if there are any additional you might know about?

Thanks for your help

Anna
