The loss of local families in the area is already having a significant impact on schools and local businesses due to the cost of housing and lack of social housing and has already resulted in the closure of two local primary schools as a result of falling rolls. it is vital that the local community continues to be supported so that the negative impact of families moving out of the area does not continue to affect businesses and schools in order for them to remain viable. This extension will enable families to remain in the area. The application appears to be unobtrusive by comparison to other buildings in the area and would have no detrimental impact.</p>
