| 2023/2203/P | roni rosenheimer | 28/06/2023 22:46:20 | OBJ | I wish to object to this application, the proposed extension, by reason of its siting, size and design, would result in an excessive and incongruous addition to the building which would be harmful to the character and appearance of the building. Moreover, the application is lacking vital information as well as an over development of the site. The application does not provide for a car free development as is required under the planning policy in Camden. |
