Description of the Proposal

Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

We have a double story flat situated to the rear of a semi detached building. We are looking to increase the amount of light coming into our stairwell by joining 2 existing small round windows together. This would made a tall narrow window.

Additionally we would like to replace a circular window in the master bedroom and create a new smaller window in the second bedroom, both on the basement floor. These windows will open in order to improve air circulation and light in the basement bedrooms.

We will do this keeping in the same style of other windows in the flat at the moment.

From the rear of the building, you cant see the existing windows as the bedrooms are basement level and the window in the stair well is in a narrow alley way behind an external staircase.

Has the work or change of use already started?

Window in the stairwell of flat 2, 68 Crediton Hill, NW6 1HR. Additionally a replacement of a circular window in a basement bedroom and a new window in a second basement bedroom.

The property is a 2 story flat located on the ground and lower ground floors at the back of 2 terraced houses that have been joined together and divided up into 7 flats. The flat is part of an extension built in the 1970's and has sole ownership of the garden at the rear of the building.

The property is not overlooked and backs onto privately owned tennis courts.

The proposed development is to make one rectangular window out of two existing round windows in the stairwell of the flat between the ground and lower ground floor to the rear of the property. Additionally a replacement of a circular window in a basement bedroom and a new window in a second basement bedroom. This will be done in a similar style to the existing patio doors. The window in the stairwell is behind an existing external staircase. It is not visible from neighboring properties as the building is a basement flat and the window is lower than the next door property. The windows are intended to allow more light into the properties entrance hallway and respective bedrooms. Additionally the windows in the bedrooms will allow airflow into the bedrooms. Currently they only have patio doors which are not left open in the evenings (restricting fresh air).

The development is on private property and will not obstruct the view or boundaries of any other property.
