Subject: Objection to 2023/1751/P

[REDACTED]

I am a resident of King Edward Mansions, my 86 year old mother and I have our lounge and 2 bedrooms opposite Alexandra Mansions. We strongly object to the balustrade being erected at roof level opposite our flat. Anyone using the area has a direct view in to the entire east facing facade of King Edward Mansions, I feel certain that the area in question would be used for social gatherings and generally interfere with privacy, and there is always likely to be noise issues in an area that some residents may decide is a social space in the middle of the west end. Therefore the residents of 2B King Edward Mansions strongly object the the balustrade proposal.
