2023/2045/P	A Fairley	03/07/2023 01:56:53	COMMNT	<p>I am very concerned about the proposed "large roof light beside the rear wall of the house". Together with the " large sliding aluminium glazed doors across the width of the proposed extension " presumably a lot of artificial light will be beaming into all our gardens and will be highly visible at night time. The application does not suggest there are plans to have blinds or/curtains on the glazed doors to minimise this light intrusion. Bearing in mind it is a kitchen/dining room addition it will most likely be a daily occurrence.</p> <p>Is the addition of a large roof light really necessary or will it be a an additional light pollution for all the neighbours ?</p>
