2023/2341/P	Stuart Mills	03/07/2023 08:23:02	OBJ	I strongly object to this proposal. Surely there are enough precedents to demonstrate the harm these installations do the quality of the built environment? In particular, this proposal obstructs the public realm and degrades the merit of the existing street. This installation also harms the setting of the cemetery. There is enough clutter on the streets and pavements of West Hampstead without anymore insensitive technical infrastructure. Furthermore, such installations attract anti-social behaviour and graffiti.
2023/2341/P	Gregg K	01/07/2023 11:58:15	OBJ	I strongly object to the installation of the 18 metre high 5G mast in Fortune Green residential area for several reasons: (1) the mast could cause health risks to children (including my own) who will have to walk by it on the way to school and on the way back every single day, (2) the extremely high mast will also adversely impact the character and appearance of Fortune Green which will hurt property values at a time when the local market is already under pressure, and (3) the 5G signal in the area is already very good in the area so there is no need for an additional mast
2023/2341/P	Kai Peters	01/07/2023 21:04:19	COMMNT	Good. Sensible location, great to have strong 5G.
2023/2341/P	Lee V	01/07/2023 10:16:45	OBJ	I wish to oppose this planning application, for the safety and health elements that it would cause to environment. This will be a complete eye-sore in a very beautiful part of the city. It is grossly disrespectful that the applicant E wants to put an ugly mast on the edge of a cemetery in a residential area. Surely there are enough precedents to demonstrate the harm these installations do the quality of the built environment? In particular, this proposal obstructs the public realm and degrades the merit of the existing street. This installation also harms the setting of the cemetery. There is enough clutter on the streets and pavements of West Hampstead without anymore insensitive technical infrastructure. Furthermore, such installations attract anti-social behaviour and graffiti.
