| 2023/2627/P | Richard Lewis | 04/07/2023 08:32:54 | COMMNT | I object to the proposed building of additional flats on the property adjacent to the former Admiral Mann public house because it would affect the future viability of a traditional London pub with additional residential units in such close proximity. Until property developers bought and closed this historic pub, previously in operation and turning a profit since the 1870's, it provided a vital community hub and is much missed by local residents. It is my hope that one day it will reopen and once again serve this function but it would be hindered by increase of new residential units overshadowing the site. In the past the pub hosted many parties, wakes, marking of national events such a Jubilees and many other gatherings. Please reject this proposal to better ensure the future prospects of this pub reopening. |
| 2023/2627/P | Tk | 04/07/2023 08:18:40 | COMMNT | 2023/2627/P This is overdevelopment of an already compact area which doesn't have the infrastructure to support it. It will also impact on the aesthetic of the local area negatively and should not be allowed to go ahead. It will bring more cars into the area and will put greater demand on local services such as doctors and schools who are already stretched. The developer has already had his here profit and they should now stop and be happy with their portion |
