[REDACTED]

Hello Obote,

BCAAC considers the above planning proposal & drawings for the HMO (creating 4 flats) better than many seen. It has No Comment if the development keeps to its stated aims of restoration of historic detail & materials used. The committee was perplexed about the staircase between the 1<sup>st</sup> & 2<sup>nd</sup> floor; where it led to and were not able to clearly ascertain where the entrance door to Flat 4 actually was.
