

Hello,

I'm writing in support of the linked planning applications from 48-56 Coity Road.

Allowing residents to adapt and extend their homes is a vital way for enabling families to stay in Camden and continue to be a part of their communities. With the house prices rising rapidly, families are priced out of many areas in London. This has a knock-on effect on places like Camden, where schools have closed because of falling rolls as residents are not able to remain in the borough to raise a family. Enabling residents to expand the homes they have to accommodate growing families provides a solution for those who would otherwise have to move elsewhere, or live in homes that no longer suit their needs.

It is also very positive to see neighbours working cooperatively together to create plans that are well-designed.

I hope for these comments to be taken into account when deciding whether to grant planning permission.

Best wishes,

Rebecca Filer (Cllr)
