Subject: Re: 2023/2510/P One Museum Street

Dear sirs,

I wish to register my *objection* to the new planning application above on the following grounds:

That the proposed building is too tall & will adversely affect listed St George's church, British Museum, & Bedford Square - likewise nearby conservation areas in Covent Gdn., Bloomsbury & Soho.

In addition, neighbourhood buildings will be overlooked & daylight likely reduced - also setting a precedent for future taller builds.

Demolition is not supportive of UK's, Greater London & Camden Council's climate change policy of retaining existing buildings whilst retrofitting to suitably adapt them sensitively within a historical context.

Also not enough affordable/social housing is included in replacement provisions.

Thank you for your attention.

Yours sincerely
