Dear Planning Team,

I am writing in support of a number of linked applications for extensions in Coity Road NW5. My comments relate to all applications in the street, including number 56 (2023/1762/P)

The applications will increase living space to accommodate my friends/ family who have lived in the borough for many years. It will enable their children to stay at the local school, and then keep their jobs near home.

The designs very sensitive to the existing terrace's. The design is the same for each house, and therefore in keeping with the local area's character. By planning all these extensions together, the householders are exhibiting very good practice which will look beautiful.

It is important to keep local families on the area. I know that the family at 56 Coity Road send their children to the local school, and intend to do the same for secondary school. With falling roll numbers in Camden and two local schools closing within a few years, it's even more important to allow them to expand their home and let their children stay in the community they were brought up in.

We hope Camden will look favourably on this application.

Many thanks,
Xxx
