Subject: One Museum Street (Planning Ref: 2023/2510/P)

Good Afternoon.

As a resident, I wish to voice my objection to the above planning application in the strongest possible terms.

I have a number of concerns, but the main issue is the development does not fit into the unique character of the immediate area.

Neither can I understand why there isn't a provision for a greater number of 'affordable housing units.'

The proposed height of the building also seems ridiculously high and would clearly dwarf everything in its shadow.

I live on Macklin Street and have to inform you many of my fellow residents are greatly unhappy with the plans.

I hope our concerns are taken into consideration.

Kind regards,

Mike Bradley.
