To whom it may concern,

I am writing to express my strong objection to this monstrosity that is being contemplated for this site.

Even though there have been some extremely marginal improvements - the basic problems of the building's massing and envelope for a sensitive site have not been at all addressed - let alone its very sensitive position within a conservation area. I own a flat nearby (in Bedford Court Mansions) - the quality of life in the vicinity will be severely impacted by this nasty piece of work - Camden should not sanction it. Already, the council has been too kind to developers (such as of the miserable dungeon hotel next to the YMCA). It must not let this further horror through.

Yours faithfully,

Peter Dayan
