I object to the monster development that is being proposed for the old travelodge on the grounds that the height of the new building is going to blight our beautiful skyline in Bloomsbury not only that why oh why are they going to demolish a building that is only 55 years old which could be refurbished and reused in this present climate surely it is madness or just our GREED I expect I do not want such a beautiful neighbourhood to become a cluster of tower blocks Why does the height have to be higher than the present building? Not only that but where do you stand on GLOBAL WARMING not very high from the sound of it
