Objection to Planning Application for 150 Abbey Road, London NW6 4SR

2023/2051/P

Dear Planning

I live at Kingswood Court, behind the building in question, which backs onto our flats and is visible from our block...

I wish to raise my Objection firstly to the noise and mess emanating from the site, the disturbance that has been caused in the area of late means all local residents like me are putting up with many local building projects locally at the moment... While I agree some would be very beneficial for local housing etc, in the long term, I cannot say that a conversion and disturbing the look of the roof at 150 Abbey Road would be one of them...

I feel this would cause more overcrowding in the surrounding area, and cause congestion with parking places which are already few and difficult to find here...

I believe there may be concerns with the number of dwellings in one house which I think are far more than usual for these buildings..

This is a Conservation area and I sincerely object to construction and alteration of the roof which is clearly visible from many of the blocks in the area including my own block ...

This is the first of the Georgian houses of the iconic Abbey road and should contain and carry the splendid grandeur of the road in question..

Thank you

Mark Pampel
