Dear Planners and Tree Officers,

List 746. 10-16/7/23

2023/2820/T

I realise that these two healthy mature Ash trees are not in the DPCAAC, but are nearby and are in need of supportive comment. These two Ash trees provide amenity value both to the neighbours by blocking off the view of a local development, but also to the public, as one is visible from the public domain, namely Church Walk.

I do have concerns that the proposed use of 12mm ply for felling may be too heavy for the fragile asbestos roof, cause damage to it and release asbestos fibres.

These two trees should be preserved, not felled, and I suggest a TPO be served.

Thank you,

Eileen Willmott
