Dear Camden Council Planning Department, David Fowler and Save Museum Street,

I hope you are all well.

Apologies.

My other reasons for my strong objection to the very harmful One Museum Street scheme are as follows

Too little housing is being provided, what is proposed will be dark and with a very badly designed back yard.

Residents in the new housing will be forced to have their electric lights on all day due to lack of sunlight.

I would appreciate it that Camden Council Planning Department could please help me and my local community by not approving this very harmful One Museum Street scheme.

Yours sincerely,

Rummana
