

Dear Sirs,

I am writing to object to the application for a further flat in the roof of 150 Abbey Road on the grounds of overcrowding and the overall impact it would have on the historical appearance of adjoining buildings 148 and 150 Abbey Road.

I am equally concerned that an approved application will set a precedent for a future application of a further flat in the roof of 148 Abbey Road to which the same concerns apply.

I strongly object to the application and ask this this objection be considered seriously.

Yours sincerely

Anonymous Application
