OBJECTION TO REDEVELOPMENT OF ONE MUSEUM STREET WC1A 1JR
(planning application 2023/2510/P and Listed Building Approval application
2023/2653/L)

I am a frequent visitor to Bloomsbury, and a Friend of St Georges Gardens, and wish to OBJECT to the proposed over-development of 1 Museum Street.

The current building is already higher than most of its surroundings. If the proposed design is permitted, it will overshadow the area, ending the delightful feeling of openness that one feels on walking into Bloomsbury from Covent Garden and "theatreland".

From many viewpoints, it will displace the Hawksmoor church of St Georges as a major feature of the skyline.

Please reject this application and call for a more sensitive and appropriate design.
