Subject: OBJECTION TO REDEVELOPMENT OF ONE MUSEUM STREET
2023/2510/P (planning application) and 2023/2653/L (Listed Building
Approval)

I am writing this letter to formally register my objection to the proposed planning permission for for the **REDEVELOPMENT OF ONE MUSEUM STREET 2023/2510/P (planning application) and 2023/2653/L (Listed Building Approval)** .

As a proud Camden resident, I am deeply concerned about the potential impact this scheme will have on our beloved community and the historic district of Bloomsbury.

By endorsing this project, we risk sacrificing the charm and appeal that make our community a cultural gem in London.
We should be embracing initiatives that enhance and preserve our heritage, not erode it.

Moreover, I am deeply concerned about the implications of this development on the environment and the health of our community.
Sustainability and the promotion of a healthy living environment should be central to any planning decision.
However, this proposal seems to overlook these vital considerations, potentially leading to increased pollution and adverse effects on air quality.

As a responsible citizen, I believe it is the duty of planners and politicians to make decisions that benefit the collective well-being of our city.
Approving this scheme in its current form would be a disservice to Camden residents and the greater London community.
We need a development that aligns with our values and aspirations, one that reflects the vibrant and forward-thinking spirit of our city while safeguarding its heritage and natural assets.

Therefore, I respectfully demand a thorough reconsideration of this proposal.

It is crucial that the planning authorities take into account the objections and concerns of the residents before making any decisions that will impact our lives and our community's future.

I urge you to engage in meaningful dialogue with the residents to create a vision for Bloomsbury that we can all be proud of.

Thank you for considering my objections to this planning permission proposal.

I trust that you will carefully assess the long-term consequences of this development and act in the best interest of the residents and the city as a whole.

Sincerely,
Dario Vigorito
