Dear Camden Planning,

I am writing in objection to the above-referenced project.

The proposal is completely out of scale for the area in which it is proposed. It is far too large and too high. It will overshadow important listed buildings in the immediate vicinity including St George's Bloomsbury, Bedford Square and the British Museum.

The proposal is also environmentally wasteful in replacing an existing building which could be retrofitted. Furthermore, the developer proposes demolition of 19th century buildings which constitute important and irreplaceable heritage.

Please do not allow this project to move forward.

Many thanks for your support.
