

DEMOLITION WORKS

Foundation works and structural alterations to be carried out in accordance with Structural Engineer's design and specification.

- 1
- Existing window/door to be removed. Structural opening to accommodate triple glazed replacement.
- 2
- Top of wall to be carefully removed to allow for new pitched roof.
- 3
- Paved area to be raised to allow step free access into dwelling. New ramp to facilitate this
- 4
- Planter removed and replaced with suitable surface for bin and bike storage
- 5
- Boundary fence replaced and aligned with site boundaries

- KEY:
- Elements to be demolished
- Elements to be retained
- Elements to be replaced
- Elements to be blocked up
- Excavation

1. Use figured dimensions only
2. Do not scale from this drawing
3. All dimensions to be checked on site and the Architect to be informed of any discrepancies before construction commences
4. All references to drawings refer to current revision of that drawing.
5. Structural and services information shown is indicative only. Refer to consultants' drawings for details and setting out.
6. All work and materials to be in accordance with current applicable statutory legislation and to comply with all relevant codes of practice and British and European standards
