# Please note in regard to: • Fire Statements - From 1 August 20:

- Fire Statements From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. <u>View government planning</u> quidance on fire statements or access the fire statement template and quidance.
- **Permission In Principle** If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or <u>view government planning guidance on determination periods</u>.

#### Description

Please describe details of the proposed development or works including any change of use

Dear planning officer,

I am applying for a permission to change all windows in my newly-bought home at Flat B 34 Birchington road, NW6 4LJ. The flat has two sides with two rooms and their respective windows per side:

- a) front-facing side: (i) living room bay window; and (ii) kitchen window; and
- b) back-facing side: (iii) master bedroom window; and (iv) second bedroom window.

The reason for the proposed change is that the existing windows are in a very poor condition. They have not been looked after by the previous owner, they are rotting, cannot close properly and are beyond repair. They are also single glazed and with very poor energy efficiency.

I have attached a supporting document named "Flat B 34 Birchington Road - windows plans" that contains drawings and key characteristics for each original and proposed window. In summary, my proposal is as follows:

#### a) front-facing windows

I propose to keep all window characteristics the same, including the original symmetry, colour, sash closing mechanism, vents, horns and handles. This is with one exception only - I propose to change the material from timber to uPVC to make the windows affordable and more energy efficient. Birchington road is not a conservation area and a very large proportion of front-facing windows on the road have already been replaced with uPVC and/or have a different window symmetry, including most of my neighbours' windows (see slides 2-3 of the supporting document). I also propose to use the scaffolding that would be installed for the front-facing windows to clean the facade, including to remove any excess cables and satellite dishes, all as per the original design.

#### b) back-facing windows

I propose to keep most window characteristics the same, including symmetry, colour, vents and handles. However, I propose to change the material from timber to uPVC and the closing mechanism from sash to casement, again, to make the windows affordable and more energy efficient. This is the back-facing side of the flat and therefore the character of the street is less important. I note that most of my neighbours have already replaced their windows with uPVC and/or have a different window symmetry and even colours (see slide 4 of the supporting document).

I am looking forward to your communication on this matter.

Kind regards, Georgi Pojarliev

Authority Employee/Member
With respect to the Authority, is the applicant and/or agent one of the following:  (a) a member of staff  (b) an elected member  (c) related to a member of staff  (d) related to an elected member
It is an important principle of decision-making that the process is open and transparent.
For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
Do any of the above statements apply?  ○ Yes  ⊙ No
