Dear Camden Planning,

References: **2023/2510/P** (Planning Application)  
and **2023/2653/L** (Listed Building Approval)

### **OBJECTION**

I strongly object to this proposal. Such a huge towering structure will undeniably have a negative impact on the historic area and community of Bloomsbury. It will adversely affect those who live, work and visit there. It is also harmful for the climate, for the health and wellbeing of our children.

It is wrong for responsible planners and politicians to approve this scheme as it is. Please re-think.

Yours faithfully,

Ingrid Schroeder
