Subject: 2023/2423/P Change of Use 108 Swains Lane.

FAO Case Officer Sam Fitzpatrick
Ref 2023/2423/P Change of Use 108 Swains Lane

I would like to lend my support to this proposed change of use application to residential use. I have been a neighbour for a number of years and have always felt that this has been a poor location for a nursery.

The existing location is in the centre of a built-up, peaceful residential space. When active as a nursery, the sound of kids (and adults) shouting and screaming was intensified as it bounced off surrounding building walls. I found myself having to keep windows shut on hot days and being unable to do work calls because of the noise level. It's a relief the nursery has gone.

I don't think this space is fit for any use that creates so much noise, please consider this feedback when making your decision.
