Dear Camden Planning and David Fowler

Re: Objection - 2023/2510/P and 2023/2653/L

I strongly object to the building of this massive, ugly tower. It is out of all proportion to the local landscape and will completely destroy the ambience of the neighbourhood: the charming streets, the listed buildings in Bedford Square as well as the conservation areas of Bloomsbury, Covent Garden and Soho.

Furthermore, the current building could be retro-fitted which would be in accordance with the climate change policies of Camden Council and the UK government.

I ask you to reject this scheme.

Thank you.
