2023/2577/P	Stuart Perry	07/08/2023 15:04:28	COMMNT	<p>I don't live adjacent to Flask Walk, hence only making a comment rather than object/support. But from my experience these devices are a total blight on our area and should not be installed.</p> <p>My sleep is very negatively impacted by the heat pump that runs at Langtree House 19f, East Heath Road, NW3 1AJ, which backs on to the rear gardens of Cannon Place; I'm probably 25m from the device, but no matter what enclosures you put these things in there's a bass hum that travels long distances and through even modern double glazing such as my own. And as for being in my garden, well the atmosphere and tranquility is totally ruined.</p> <p>Further I would note that for the vast majority of the day you can stand on any street in this section of Hampstead and it is totally silent, with the exception of birds tweeting. Introducing this unit would completely ruin the atmosphere, making it sound more 'industrial'.</p> <p>My fear is that approving this ASHP would set a bad precedent for the area.</p>
